THIS TEXT, BASED ON AN "EXPERIMENTAL COURSE IN SWAHILI" (FSI 1965), WAS PREPARED FOR THE PEACE CORPS. THE STUDENT IS INTRODUCED TO THE RUDIMENTS OF SWAHILI GRAMMAR AS WELL AS TO A NUMBER OF THE HIGHEST FREQUENCY PATTERNS AND CLICHES WHICH HE WILL NEED IMMEDIATELY UPON ARRIVAL IN EAST AFRICA. THE DISTINCTIVE FEATURE OF THIS COURSE IS ITS "MICROWAVE" STYLE OF LESSON ORGANIZATION, WHICH EMPHASIZES COMMUNICATIVE USE OF EACH CULTURAL ELEMENT AS SOON AS IT APPEARS. THE UNITS, OR "CYCLES", BEGIN WITH THE INTRODUCTION OF NEW MATERIAL AND END WHEN THAT SAME NEW MATERIAL HAS BEEN USED FOR PURPOSES OF COMMUNICATION. EACH OF THE 87 CYCLES CONTAINS AN "M PHASE" (MIMICRY OF PRONUNCIATION, MANIFULATION OF GRAMMATICAL ELEMENTS, LEARNING THE MEANINGS OF THE WORDS AND SENTENCES, AND A CERTAIN DEGREE OF MEMORIZING) AND A "C PHASE" (CONNECTED CONVERSATION AND COMMUNICATION.) SUGGESTIONS FOR TEACHING THE MATERIAL APPEAR IN THE INTRODUCTION. NOTES TO THE STUDENT EXPLAIN STRUCTURE POINTS AND DIRECTIONS FOR THE EXERCISES. AN INDEXED SWAHLLI-ENGLISH GLOSSARY AND AN EPILOGUE PROVIDING SUGGESTIONS FOR EXPANDING THE STUDENT'S VOCABULARY AND GRAMMAR ARE APPENDED. THE TEXTUAL COMPONENT IS SUITED FOR PRESENTATION EITHER IN A LANGUAGE LABORATORY OR IN A CONVENTIONAL CLASSROOM. THIS TEXT IS ALSO AVAILABLE FOR \$0.75 FROM THE SUPERINTENDENT OF DOCUMENTS, U.S. GOVERNMENT PRINTING OFFICE, WASHINGTON, D.C., 20402. (AM)

PREFACE

In the summer of 1965, the Foreign Service Institute produced for Peace Corps use an Experimental Course in Swahili. The distinctive feature of that course was its 'microwave' style of lesson organization, which emphasizes communicative use of each structural element as soon as it appears. Subsequent experience in a number of Peace Corps training programs as well as at the Foreign Service Institute has led to extensive revision and supplementation, and to division of the one course into two.

The subject matter of this booklet is taken from the area of general, socially useful, conversation. The student is introduced to the rudiments of Swahili grammar as well as to a number of the highest frequency patterns and cliches which he will need immediately upon arrival in East Africa.

The companion booklet, An Active Introduction to Swahili: Geography, may be used before this one, or after it, or concurrently with it. Both have been produced with financial support from the Peace Corps.

Supervising linguist for the project was Earl W. Stevick, assisted by Marianne Lehr and Paul Imhoff. Swahili materials were supplied and checked by John Indakwa and Daudi Ballali. Mr. Indakwa also supervised in one of the principal training programs in which the Experimental Course was first used.

The Institute wishes to thank the many persons who, through their criticisms and corrections of the Experimental Course, have contributed to the improvement of the present version.

INTRODUCTION

The principal component of this course is a series of 'cycles'. Each 'cycle' begins with the introduction of new material, and ends when that same new material has been used for purposes of communication. 'Communication' should be real, not just simulated.

Each cycle contains at least an 'M phase' and a 'C phase'. 'M' stands for mimicry of pronunciation, manipulation of grammatical elements, learning the meanings of the words and sentences, and a certain degree of memorizing. C stands for connected conversation, and of course for communication. Suggested procedures for use in presenting the M and C phases are given below.

Ways of conducting the M phase in each cycle:

- 1. Mimicry of the teacher's pronunciation.
 - a. Say aloud each of the complete sentences. Have the students repeat them after you. Try to talk at a slow <u>normal</u> rate of speed.
 - b. When you hear a wrong pronunciation, correct it by giving the right pronunciation again. For example, if the student says /Manambi/ in Cycle 1, simply say /Mnambi/, and have him say it again after you. Or say 'Si /Manambi/, ni /Mnambi/' and have him repeat the correct pronunciation.

When all the students can pronounce all the words and sentences well, teach them the meanings:

- 2. Meanings of the sentences.
 - a. Have the students repeat a whole sentence after you. Then give the English, and have them give the Swahili. For example:
 - T: Jina lako nani?
 - S: Jina lako nani?
 - T: What's your name?
 - S: Jina lako nani?
 - b. Give sentences at random in either English or Swahili. Have the students translate into the other language. Do this only long enough so that you are sure the students know the meanings of the Swahili sentences. It should not be necessary to spend more than about three minutes on this.

When the students know the meanings, go on to manipulation of the grammatical structures of the sentences:

3. Manipulation of the structures. Give the students a key word from the left-hand column. The students reply with the corresponding complete sentence.

In some cycles, the manipulation involved is only nominal:

- T: Jina langu Daudi Mnambi.
- S: Jina langu Daudi Mnambi.
- T: Ann Fine.
- S: Jina langu Ann Fine.
- T: John Kanyati.
- S: Jina langu John Kanyati.

In this example, from Cycle 1, the student has only to remember and reproduce the constant part of the sentence over and over.

Manipulation may also require the student to make grammatical choices. So, in Cycle 12:

- T: Ninatoka mji wa Baltimore.
- S: Ninatoka mji wa Baltimore.
- T: Maryland.
- S: Ninatoka jimbo la Maryland.
- T: Amerika.
- S: Ninatoka nchi ya Amerika.

The student must choose here among /wa/, /la/, and /ya/.

When the students are able to perform well all of the activities outlined above, they are ready for the C phase. Experience has shown that instructors working with $cl\varepsilon$ ses of 5-10 students can complete the average M phase in 10-20 minutes.

Ways of conducting the C phase of each cycle. The C phase consists of one or more short conversations. For each conversation:

- a. Take the part of the first speaker in the conversation, and have students take turns as the second speaker.
- b. Let students take both parts in the conversation.

It is important in the C phase to talk about people, places, and things that are real, and that are of interest to the students. Substitute other words for the ones that are in (). For example, C-1 of Cycle 18 is:

- A: (Kitabu) h(iki) ni (ch)angu. H(icho) ni (ch)a nani?
- B: Ni (ch)a Bw. (Fulani).

This stands of course for the conversation:

- A: Kitabu hiki ni changu. Hicho ni cha nani?
- B: Ni cha Bw. Fulani.

but it also stands for many other conversations, among which are:

- A: Vitabu hivi ni vyangu. Hivyo ni vya nani?
- B: Ni vya Bw. Smith.
- A: Nguo hizi ni zangu. Hizo ni za nani?
- B: Ni za Bw. Mnambi.

It does not, however, allow for:

A: Hiki ni kitabu chako?

or for:

A: Kitabu hiki ni kizuri.

In many cycles, the teacher or the students may feel it worthwhile to introduce extra vocabulary. They are encouraged to do so, being sure that:

- a. the new words are of special relevance to the interests of the students, and
- b. the new words fit into the C phase at one of the points enclosed in ().

As soon as the students are able to converse easily, correctly, and informatively using the material in the C phase, the cycle has ended. Go on to the next cycle, or review an earlier cycle. Experience has shown that the average amount of time spent on each of the cycles is about one hour. This includes the first presentation of the cycle, and one or two reviews of it on later days. The first time through a new cycle therefore takes no more than 20 -30 minutes.

As much as possible, have the students act as well as talk: pointing to a map, standing up to talk and other simple activities add meaning to the words. Activities also help to keep the students from getting tired and restless.

Because of the extreme shortness of the 'cycles', the principal component of this course has been given the name 'microwave.'

The 'microwave' part of the course is supplemented by a second component. The second component is based on a series of short connected texts, which have two important properties: (1) the information which they contain, like most of the information in the cycles themselves, is factually accurate, and (2) they are based on a set of spontaneous monologs recorded with no special restrictions on grammar or vocabulary.

The materials in the textual component of this course differ among themselves, so that separate instructions are given for each group. In general,
however, they require the student to take responsibility for responding to each
text in more than one way, so that he focuses his attention on it from two or
more points of view.

The textual component is suited for presentation either in a language laboratory or in a conventional classroom. Either way, it provides the student with a change of pace.

l Under certain circumstances, the markers that occur before consonants also are found before vowels:

Nilikiona. II saw it (Cl. 7). I viatu Ishoes!

- 2 The symbol # stands for the fact that most nouns of Class 5 have no overt marker at all when the stem begins with a consonant.
- 3 Classes 9 and 10 have no special prefix syllable for nouns, but many nouns in this class begin with a nasal sound (/m, n/etc.).
- When a stem begins with the vowel /i/ (e.g. /ingi/ 'many') and the prefix ends with /a/, the vowel that is pronounced is /e/: /wengi, mengi, pengi/, instead of the nonexistent */waingi, maingi, paingi/.
- 5 Coastal standard pronunciation of these prefixes is with syllabic /m/, but the pronunciation /mu/ is often heard also.

CYCLE 1

M-1

- A. Repeat each utterance after the instructor.
- B. Give the complete sentence that includes the cue word that the instructor will give you.
- C. Be sure you understand the meaning of each sentence.

Daudi Mnambi	Jina langu Daudi Mnambi.	Daudi Mnambi	My name is Daudi Mnambi.
Ann Fine	Jina langu Ann Fine.	Ann Fine	My name is Ann Fine.
John Kanyati	Jina langu John Kanyati.	John Kanyati	My name is John Kanyati.
Melanie Phillips	Jina langu Melanie Phillips.	Melanie Phillips	My name is Melanie Phillips.

M-2

Proceed as for M-1.

nani?	Jina lako nani?	what?	What is your name?
lako	Jina lako nani?	your	What is your name?

C-1

The instructor will give you a question and supply you with the formula for the answer. Add your own name to the sentence and give the answer.

A: Jina lako nani?

A: What is your name?

B: Jina langu (Phillips).

B: My name is (Phillips).

Then ask and answer this question with the other students in the class, using your own name.

Apply this activity to a real situation outside of class by asking the names of other students who are also working on Swahili. Do this at least 5 times within the next 24 hours. The thoroughness and imagination with which you perform these outside assignments will have a major effect on how much you learn.

TO THE STUDENT:

The noun /jina/ means 'name'.

The possessive stem /ako/ means 'your' (sg.). The /l/ in /lako/ is a prefix that agrees with /jina/. The matter of agreement will be discussed later in more detail. The same prefix /l/ occurs in this cycle with the possessive stem /angu/'my'.

The interrogative word /nani/ means 'who?'

The literal meaning of the whole sentence /Jina lako nani?/ is then 'Name your, who?' There is no word in this sentence that corresponds to English 'is'.

CYCLE 2

M-1	Hasani	Jina lake Hasani.	Hasani	His name is Hasani.
	Bill	Jina lake Bill.	Bill	His name is Bill.
	Magdalena	Jina lake Magdalena.	Magdalena	Her name is Magdalena.
	Barbara	Jina lake Barbara.	Barbara	Her name is Barbara.
M- 2	l.ake	Jina lake nani?	his/her	What is his/her name?
	J.ake	Ullia lake hanz:	,	
	nani?	Jina lake nani?	what?	What is his/her name?
	mtu huyu	Jina la mtu huyu nani?	this perso	n What is this person's name?
	mtu huyo	Jina la mtu huyo nani?	that perso	on What is that person's name?
C-1				
	A: Jina l	a mtu huyu nani?	A: What i	s this person's name?
	B: Jina l	ake (Thompson).	B: His/he	r name is (Thompson).

At the end of this cycle, every student should be able to ask and answer questions about his own name and the names of all other members of the class.

TO THE STUDENT:

The possessive stem for third person singular ('his, her') is /-ake/.

The word /la/ consists of the same prefix /l/ plus a linking particle /a/.

In the word /huyu/ 'this' the part that agrees with the noun /mtu/ 'person' is /uyu/. In /huyo/ 'that', it is /uy/.

Some speakers will prefer to use /yule/ 'that' in place of /huyo/. The part of this word that depends on /mtu/ is /yu/.

CYCLE 3

 -
- 1

Hasani Jina lako Hasani? Is your name Hassan?

Murphy Jina lako Murphy? Is your name Murphy?

Muya Jina lako Muya? Is your name Muya?

Cohen Jina lako Cohen? Is your name Cohen?

M-2

Hasani Jina langu si Hasani. My name is not Hassan.

Murphy Jina langu si Murphy. My name is not Murphy.

Cohen Jina langu si Cohen. My name is not Cohen.

C-1

A: Jina lako (Phillips)? A: Is your name (Phillips)?

B: Jina langu si (Phillips).

Jina langu (Cohen).

B: (No,) my name isn't (Phillips).

My name is (Cohen).

TO THE STUDENT:

The word /si/ is used in the negative counterparts of the sentences in Cycles 1 and 2.

CYCLE 4

Minimal Pair Drill

(Question vs. Statement Intonation)

You are to listen carefully to the intonation patterns of the following items. Each one will be identified so that you may have the opportunity to compare the question pattern to the statement pattern.

Jina lake Smith?

Is his name Smith?

Jina lake si Smith.

His name is not Smith.

Jina lake Thompson.

His name is Thompson.

Jina lake Ballali? Is his name Ballali?

Jina lake Ballali. His name is Ballali.

Jina lake Mnambi? Is his name Mnambi?

Jina lake Mnambi. His name is Mnambi.

Now you are to identify whether it is a question or a statement that you hear by saying 'statement' or 'question' in response to each item. Do not try to learn the meanings of these sentences, or of the words they contain.

Jina lake Smith.	1. His name is Smith.	(statement)
Jina lake Mnambi.	2. His name is Mnambi.	(statement)
Jina lake Mnambi?	3. Is his name Mnambi?	(question)
	4. Is his name Smith?	(question)
Jina lake Smith? Jina lake Thompson?	5. Is his name Thompson?	(question)
Jina lake Thompson.	6. His name is Thompson.	(statement)
	7. His name is Ballali.	(statement)
Jina lake Ballali.	8. Is his name Ballali?	(question)
Jina lake Ballali?	t secondal	(statement)
Jina lake Mnambi.	and Alan	(question)
Jina lake Smith?	Maran Ina O	(question)
Jina lake Murphy?	11. Is his name Murphy?	(question)
Jina lake Mnambi?	12. Is his name Mnambi?	(statement)
Jina lake Ballali.	13. His name is Ballali.	(Blacement)

You will now be given a series of items which you are to identify as either questions or statements just as you did above. However, this series will contain words which should be unknown to you. You are to make your judgment based on the intonation patterns clone.

Anakwenda mjini leo?

1. Is he going to town today? (question)

Wanangojea gari la abiria (bus)?

2. Are they waiting for the bus? (question)

Wanakula chakula chao cha 3. They are eating their lunch here today. (statement)

Watoka Texas? 4. Are they from Texas? (question)

Bwana Obote atoka Uganda.	5•	Mr. Obote is from Uganda.	(statement)
Akaa Texas sasa.	6.	She lives in Texas now.	(statement)
Akaa Baltimore?	7.	Does she live in Baltimore?	(question)
Wakaa Leopoldville.	8.	They live in Leopoldville.	(statement)
Atoka sehemu ya kaskazini.	9.	He's from the northern part.	(statement)
Atoka Baltimore?	10.	Is he from Baltimore?	(question)
Wanakula machungwa?	11.	Are they eating oranges?	(question)
Wanakula mananasi.	12.	They are eating pineapples.	(statement)

Finally, try to read the sentences aloud so that they are clearly either statements, or are questions with Swahili-style question intonation. This

C-1

- A: Jina lake (Smith)?
- B: Jina lake si (Smith). Jina lake (Thempson).
- A: Is her/her name (Smith)?
 - B: (No,) his/her name is not (Smith). His/her name is (Thompson).

CYCLE 6

M-1	Juma	Ah/Oh, jina lake Juma	? His	name is Juma, eh?
	Thomas	Ah/Oh, jina lake Thom		name is Thomas, eh?
	Bill	Ah/Oh, jina lake Bill	l? His	name is Bill?

	B: La,	jina lake (Barbara).	B:	No, his/her name is (Barbara).
	A: Ah/C	oh, jina lake (Barbara)? A:	His/her name is (Barbara), eh?

TO THE STUDENT:

In this cycle also, the thing to concentrate on is the intonation pattern on the question. This kind of echo-question is useful in a number of ways, among which is as a way of stalling for time when the conversation is getting a bit fast for you.

Each student should:

- 1. Bring to class a picture of a famous American and a famous person from the country where the language is spoken.
- 2. Bring to class a snapshot of a friend or relative.
- 3. Suggest the name of someone who lives or works nearby, but is not in the class.

The teacher, and then the students, should ask questions about these people, of the kinds found in Cycles 1-5.

You should endeavor constantly to relate these materials to the real world and your situation in it. These pages are intended to be more than class-room exercises and drill material. The more you find actual experience stimulating your production of Swahili and the more your spoken Swahili bears

The management of the second o

relationship to the real world, the more solidly established your command of this language will become and the more secure you will feel in using Swahili.

	B: La, mimi si (M Mimi (Mluhya).			m not a (Myamwezi). (Luhya).
	A: Oh, wewe (Mluh	ya)?	A: Oh, yo	ou're a (Luhya), eh!

You should now make this device serve you in a real communication situation. You should ask this question not only among your classmates and others studying Swahili but also among the Swahili-speaking instructors.

TO THE STUDENT:

The non-possessive pronouns are:

	S	SINGULAR	PLU	RAL
1st pers.	mimi	'I'	sisi	'we'
2nd pers.	wewe	'you (sg.)'	ninyi	'you' (pl.)'
3rd pers.	yeye	'he, she'	wao	'they'

The possessives are:

	SINGULAR		PLUR	RAL
1st pers.	-angu	'my'	-etu	'our'
2nd pers.	-ako	'your'	-enu	'your'
3rd pers.	-ake	'his, her'	-ao	'their'

Except for the third person plural, there is no resemblance in form between corresponding possessives and non-possessives.

The word 'European', used here to translate /mzungu/, must be understood in its African sense, which includes any person of European ancestry, even though he may be from the western hemisphere or elsewhere.

In pronouncing words like /mzungu, Mluhya, Mnyamwezi/, be sure not to put in an extra vowel and say */mazungu, muhzungu, umzungu/, or anything of the sort. The word /mzungu/ begins with the same /m/ sound as /mimi/. Hold on to that sound for an instant, and then go on directly to the /z/.

The same principle applies to words like /ndiyo/, which consists of only two syllables.

A: Unatoka mji gani?

- A: What city are you from?
- B: Ninatoka mji wa (Baltimore).
- B: I'm from (Baltimore).

TO THE STUDENT:

answer.

The word /wa/ contains the same linking particle /a/ that was found in /la/ (Cycle 2). The prefix /w/ depends on, or agrees with the noun /mji/:

mji wa ...

the city of ...

but:

jina la ...

the name of ...

The interrogative word /gani/ 'what? what kind of?' requires interrogative intonation. Take special pains to reproduce your teacher's intonation exactly, even if it seems a bit awkward to you at first.

The words /ninatoka/ 'I come from' and /unatoka/ 'you come from' are fully inflected verbs. Their structure is:

•	SUBJECT PREFIX		TENSE PREFIX	STEM
ni	'I'	na	(present)	toka
u	'you (sg.)'	li	(past)	
a	'he, she'	ta	(future)	
tu	'we'			
m	'you (pl.)			
wa	'they'			

But some speakers prefer an alternate form of the present, called the /a/ tense:

natoka 'I come from'

watoka 'you (sg.)...'

atoka 'he, she...'

twatoka 'we...'

mwatoka 'you (pl.)...'

watoka 'they...'

B: Ninatoka jimbo la (California). B: I'm from (California).

what?

TO THE STUDENT:

The noun /jimbo/ 'state' requires the same prefix on the linking particle /a/ that /jina/ required. All such nouns are said to be in the same 'concordial class'(class 5).

Use this question outside of class at least 5 times in the next 24 hours, together with the question about a person's home town. In answering these questions, be sure to use /wa/ after /mji/ and /la/ after /jimbo/. This is a crucial point in the development of your Swahili.

TO THE STUDENT:

We have already seen (Cycles 8,9) that /mji/ and /jimbo/ belong to different 'concordial classes'. The noun /nchi/ belongs to still another, since it requires the prefix /y/ with the linking particle /a/.

Use C-2 to learn the names and countries of East African leaders who are less well known than Presidents Kenyatta and Nyerere. See which individual student, or which section, can master the longest list of these within 24 hours.

TO T	HE STUDENT:			

The noun /sehemu/ 'part' is in the same concordial class as /nchi/ (Class 9).

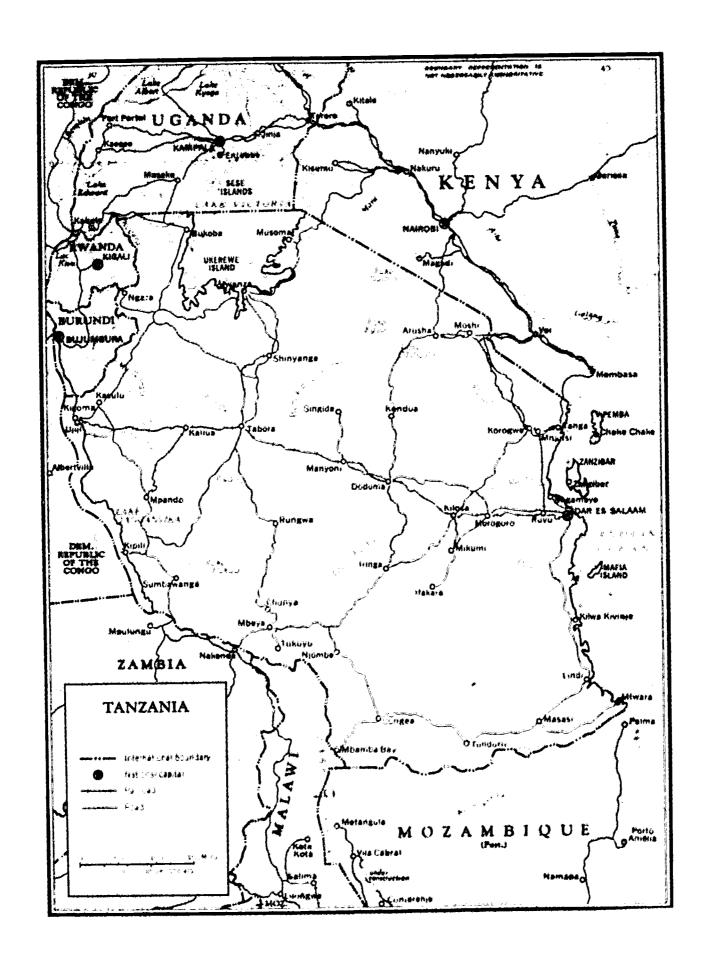

The sound spelled /gh/ in /magharibi/ is troublesome for some people. If it is too difficult for you, use a simple /g/ as in English 'got'.

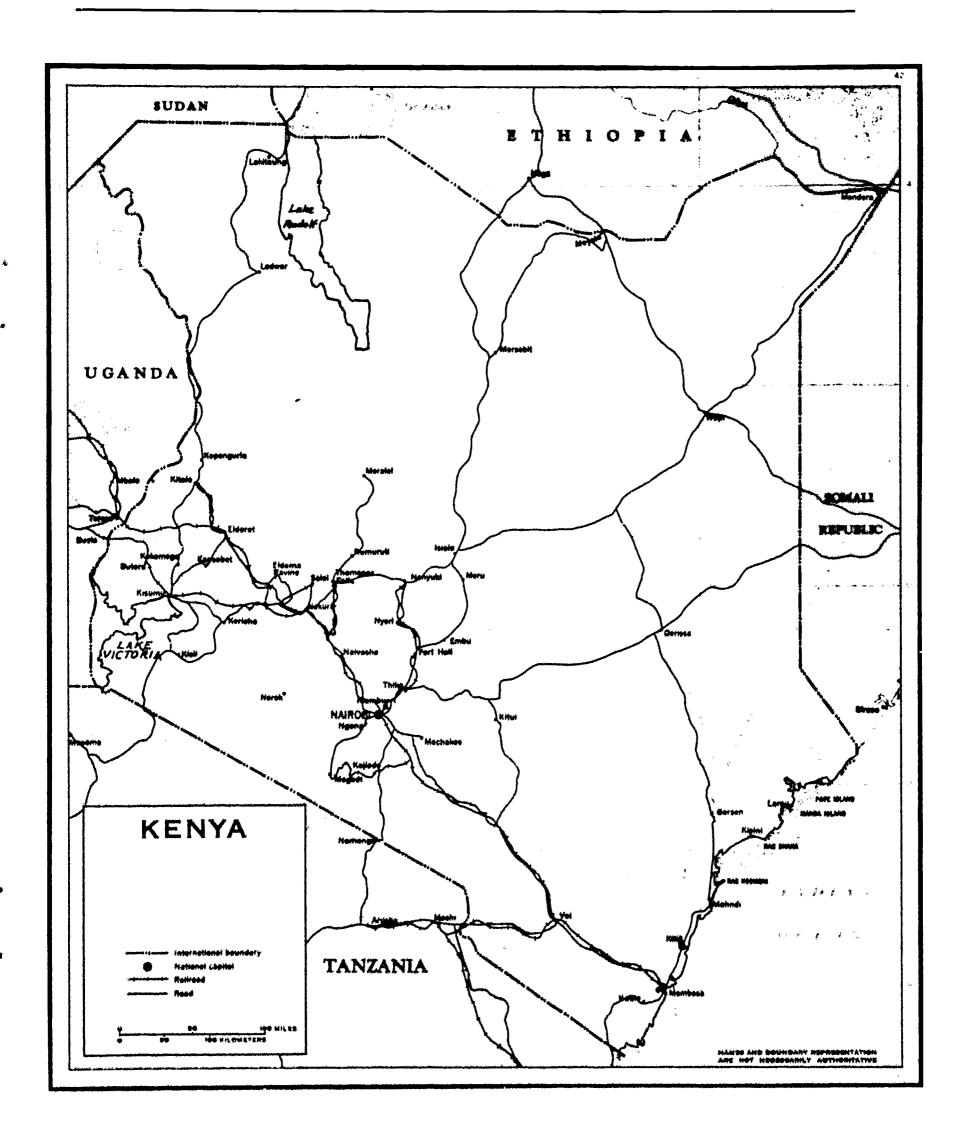

Practice introducing one another, telling what country, section, state and city each person is from. An error of fact is as serious as an error of grammar, and an error of grammar is as serious as an error of fact!

TO THE STUDENT:

The most important irregularities and inconsistencies in the Swahili language lie in the formation of the negative tenses, for these bear little relation to their affirmative counterparts. The most troublesome of all is the present negative, found in this cycle.

The present negative has no tense prefix that would be comparable to the /na/ of the affirmative. It begins with the negative prefix /ha/, but in 2 sg. and 3 sg. the vowel of this prefix is lost, so that /ha/ plus /u/ is pronounced /hu/ and not */hau/, and /ha/ plus /a/ is simply /ha/. In 1 sg., /ha/ plus /ni/ is /si/, and not */hani/.

All persons and numbers of the present tense behave alike with respect to the final vowel: those verbs which (like /toka/) have final /a/ in the affirmative, have final /i/ in the present negative. Verbs which (like /ishi/ in Cycle 15) have other final vowels in the affirmative, keep that same vowel in all their forms, including the present negative.

There is only one negative present tense, corresponding to both the /na/ tense and the /a/ tense (Cycle 8).

B: No, I'm not from (here).

I'm from (Tanzania).

This cycle provides an opportunity to use affirmative and negative forms side-by-side. Be sure that all practice is carried out with reference to real people and the places where they live.

TO THE STUDENT:

The demonstratives that go with the various classes of nouns are:

	'this'	'that	•
bwana (1)	huyu	yule	huyo
mji, mkoa (3)	huu	ule	huo
jimbo (5)	hili	lile	hilo
nchi, sehemu, wilaya (hii 9)	ile	hiyo

The basis for choosing between the forms in the last two columns is not easy to state. Both are translated into English by 'that'. Many speakers use the last to mean 'that one that we were talking about, or that we both know about', and the next to last column to mean 'that one over there'.

nani Nani huyu? who? Who is this? ('Who this?')

C-1

Ask and answer questions about the people in the pictures.

TO THE STUDENT

The word /ni/ 'is, are' is called a 'copula'. It is used in sentences where one person or thing is equated to another person or thing. We have already seen (Cycle 1) that some English sentences with 'is' have Swahili counterparts with no word for 'is', and (Cycle 13) that others have Swahili counterparts with /-ko/.

The negative counterpart of / ni / is /si/ (Cycle 3).

The word /hesabu/ means 'arithmetic'; /kushona/ means 'to sew'.

The difference between singular and plural of personal nouns is illustrated in:

mwuguzi 'nurse' wauguzi 'nurses'

mwalimu 'teacher' <u>wa</u>alimu 'teachers'

msichana 'girl' wasichana 'girls'

mvulana 'boy' wavulana 'boys'

The singular prefix is usually /mw/ before stems that begin with vowels, and /m/ before stems that begin with consonants. The plural prefix is /wa/.

When the object of a verb is a personal noun, the verb itself contains an 'object prefix', which is /m/ if the object is singular, and /wa/ if the object is plural:

anamfundisha msichana 'she's teaching a girl'

anawafundisha wavulana 'he's teaching some boys'

All practice should involve real objects and their actual locations. As far as practicable, reach, touch, and hold up for inspection as you talk.

TO THE STUDENT:

There are three locative stems: /ko, po, mo/. In choosing among them, the student may be guided by the following:

- a. /ko/ is the most general, and is the one always used in where-questions.
- b. /mo/ has to do with location within something, and so corresponds fairly well to English 'in'.
- c. the word /hapa/ 'here' calls for /po/ instead of /ko/, though some speakers will not observe this distinction.

The particle /ni/, which is pronounced as a part of the preceding word, is also locative in its meaning, and includes all three ranges of location covered by /ko, po, mo/.

The /mw/ in /mwangu/ is another instance of the same locative class that is represented in /mo/.

TO THE STUDENT:

The element /na/ means 'and' or 'with'. It most commonly joins two words in Swahili: /Bw. Kanyati na Bw. Msonte/. In this cycle, however, it is serving as a kind of stem, to which subject prefixes are added:

Nina saa.

I have a watch. ('I-with watch.')

In the replies (M-1), the final syllable is /yo, lo/, etc., in agreement with the noun that was mentioned in the question.

As with the locatives /po, ko, mo/, the negative is formed by means of /ha/. The singular personal forms show the same special changes that were noted in Cycle 14.

We'll see one another tomorrow.

TO THE STUDENT:

The literal meanings of /hujambo/ and /sijambo/ are respectively 'you [have no matter/affair' and 'I [have] no matter/affair'.

Some speakers make a difference between the titles /bi/ and /bibi/, using the former in speaking to an unmarried woman, and the latter in speaking to a married one. Many other speakers, however, do not make this distinction.

Using the title /bwana/ does not imply subservience of any kind.

At the end of this series, every student should be able to ask and answer questions about the name, home, occupation, nationality and present residence of:

- 1. All members of the class.
- 2. Six or more persons who live or work nearby but are not in the class.
- 3. Twelve or more African leaders. He should also be able to recognize these leaders in photographs.
- 4. Persons in snapshots brought in by members of the class.

Get whatever extra vocabulary you need in order to be able to do this. Each student should stand up and talk for two minutes or more in fluent, correct Swahili, using as props his fellow students and photographs of other people.

TO THE STUDENT:

The Swahili words in the cue column (/kuvaa, kuamka/, etc.) are called 'infinitives'. In many of their uses they parallel the 'infinitives' of European languages, but they are used here to supply a neutral form of the verb to be used as a cue.

Most verbs have two or more syllables in their stems. Examples are /toka/
'to come from', /amka/ 'to get up' which has three, and /vaa/ 'to put on clothing'
which has two. There are a few verb stems however which consist of only one
syllable. Two of the most common occur in this cycle: /ja/ 'to come' and /la/
'to eat'. In certain of their tenses, these monosyllabic stems require an extra
/ku/ before them. This sounds and looks like the /ku/ of the infinitive, but it
is better not to think of them as the same unit. The extra /ku/ is required in
the /na, li, ta/ tenses, but not in the (affirmative) /a/ tense, nor in the negative present.

TO THE STUDENT:

The verb form that follows /baada ya/ is the infinitive (Cycle 26). Notice that here it is not translated by an English infinitive.

The two-part sentences of this cycle give you an opportunity to use the infinitive and the present tense side-by-side.

TEXTS, SERIES TA

The following series of texts were recorded impromptu by a speaker of Swahili without reference to the content of this course.

Master Text TA-1 in four ways:

- a. Be sure you can understand it.
- b. Learn to repeat it after your instructor and read it aloud with clear pronunciation.
- c. Cover everything but the Swahili words in the left-hand column, and give the Swahili sentence from these cues.
- d. Cover everything but the English sentences, and give the Swahili by referring to them.

TO THE STUDENT:

The most conspicuous new point in this text is the /hu/ tense:

Huamka. 'I, you, he, we, etc. get up.'

The /hu/ tense does not have prefixes or any other device for showing differences among first, second, or third person singular or plural subjects.

in the countries of

Africa.

The /hu/ tense is more or less 'general present' in meaning. It is especially likely to be used of actions that are routine or that are characteristic, but comparison of Texts TA-1 and TA-2 shows how the /hu/ tense may be interchanged with other 'present' tenses.

The negative counterpart of the /hu/ tense is the same as for the /na/ and /a/ present tenses (Cycle 14).

The stem /jifunza/ 'to study' is composed of /funza/ 'to teach, educate' and the reflexive prefix /ji/. Its literal meaning is therefore 'to teach oneself'.

The verb stem /enda/ 'to go' has two syllables, but it takes an extra /kw/ in the same tenses where the monosyllabic stems have an extra /ku/ (Cycle 26).

Read the following aloud, filling in the blanks orally. Do not write in the blanks, since that would spoil the book for future practice and self-testing.

Master this text in the ways described for TA-1.

TO THE STUDENT:

The stem /someshwa/ 'to be taught' is related to the stem /soma/ 'to read, study'. The fragment /esh/ is the 'causative extension': /somesha/ means 'to teach', i.e. 'to cause to study'. The fragment /w/ is the 'passive extension': /somesha/ is 'to teach' and /someshwa/ is 'to be taught'.

TO TE	HE STUDENT:			

The reason for avoiding the translations of the numerals should now be apparent. By associating the numerals first with activities in the daily schedule, one is less likely to make a six-hour error in telling time.

This cycle introduces the /li/ tense, which is general past in its meaning. Monosyllabic stems and /enda/ require an extra / ku/ or /kw/, just as they did in the /na/ tense.

TO THE STUDENT

The particle /je/, pronounced as a separate word, may be placed at the end of a sentence, corresponding to English 'and what about'. The same interrogative particle at the beginning of a sentence merely warns the listener that a question is about to follow:

Je, una saa?

'Do you have a watch?'

TO THE STUDENT:

This cycle provides practice in using present and past tenses side by side.

Continue this, using the names of real people who are not known to the rest of the class. Ask about city, state, country. Ask also about nationality. Answers will consist of I don't know plus a repetition of the question.

[Ask the other questions in M-2, and give both negative and affirmative answers, as in C-1.]

TO THE STUDENT

The negative tense that most nearly corresponds to the past affirmative /li/ tense is illustrated in M-1. It employs the usual negative /ha/ etc. with the subject prefix (Cycle 14). Following the subject prefix is /ku/, which is used with all verb stems, and not just with monosyllabic stems and /enda/ (Cycle 26). The final vowel of this negative tense is the same as the final vowel of the affirmative.

(Give a connected account of your recent trip, using the $/\mathrm{ka}/$ tense whereever possible.)

TO THE STUDENT:

There are in Swahili two tenses that may be called 'dependent'. This means that a verb in one of these tenses may not be the only verb in a total utterance.

One of the 'dependent' tenses is the /ka/ tense, illustrated in M-1. It may

be called the 'subsecutive' tense because the action of a verb in the /ka/ tense is subsequent to the action of some preceding verb. The /ka/ tense is especially likely to be used in narration, where most of the verbs after the first may be 'subsecutive'.

TO THE STUDENT:

The word /kesho/ by itself means 'tomorrow', but /mwezi kesho/ is one way of saying 'next month'. In the same way, /jana/ is 'yesterday', /mwezi jana/ is 'last month', id /mwaka jana/ is 'last year'.

Using Swahili as the medium of instruction, teach yourself the air schedules that involve cities between which you expect to travel. Students should drill and test one another. Use up-to-date timetables: the ones reproduced here are intended only as samples.

TO THE STUDENT:

The dependent /ka/ tense was introduced in Cycle 46. The other dependent tense is the /ki/ tense, which is used in a number of ways. The usage illustrated in this cycle is one which corresponds approximately to some uses of English if' and 'when' clauses.

the time at which they eat their evening meal.

TO THE STUDENT

The stem /ingine/ 'some, other' takes concordial prefixes that are basically like the ones used with /kubwa/ 'large'. But certain classes have /e/ as the first vowel instead of /i/. These are the classes whose prefix contains /a/: /wa/ plus /ingine/ is pronounced /wengine/, but /mi/ plus /ingine/ is /mingine/, and /m/ plus /ingine/ is /mwingine/.

The concordial element /vy/, which is ordinarily used in agreement with such nouns as /viatu/, is sometimes used with reference to no noun at all. When it is so used, it refers to manner:

...hivyo

...like that, in that [manner]

The word /ambapo/ contains the very important stem /amba/, plus a suffix with one of the locative concords. Words that contain /amba/ plus a suffix are relative in meaning: wakati ambapo... the time at which... games that we play... michezo ambayo tunacheza... on the field on which they played... uwanjani <u>amba xo</u> walicheza... the food that we ate... chakula ambacho tulikula... the students who are studying wanafunzi <u>amkao</u> wanajifunza Kiswahili... TO THE STUDENT:

kufika

wengi

'many'

The reflexive prefix /ji/, already met in /jifunza/ 'to teach oneself' appears again in the same stem and also in /jitayarisha/ 'to prepare oneself'.

Then, when midnight arrives,

many of them go to sleep.

Halafu ikifika saa

sita, wengi wao

hulala.

The causative extension /esh/ was met earlier in /somesha/ 'to teach, cause to study'. Another form of it, /ish/, appears with the root /tayari/ 'ready' in the verb stem /tayarisha/ 'to prepare, make ready.' The /esh/ form is used when the vowel of the preceding syllable is /e, o/, and /ish/ is used when the preceding vowel is /i,u,a/.

The passive extension /w/ is further illustrated in the difference between /funza/ 'to teach' and /funzwa/ 'to be taught'.

The reduplicated stem /chezacheza/ means 'to play around with, play at', as compared with /cheza/ 'to play'.

The word /yanayohusika/ 'which relate' contains a relative prefix /yo/. In this context, the word could be replaced by a relative phrase with /amba/, which would be /ambayo yanahusika/.

Compare:

wanafunzi wanaocheza...
wanafunzi ambao wanacheza..

'students who play...'

wao waliojitayarisha

'they who prepared themselves...'

wao ambao walijitayarisha

'a matter that is related to the language'

jambo ambalo linanusika na lugha...

jambo linalohusika na lugha...

'games that are played there...'

michezo ambayo inachezwa huko...

michezo inayochezwa huko...

The stem /ingi/ 'many' is most often used as an adjective:

watu wengi (2)

'many people'

mambo mengi (6)

'many matters'

nchi nyingi(10)

'many countries'

chakula kingi (7)

'much food'

michezo mingi (4)

'many games'

Notice the example of the /ki/ tense in the last line of this text.

Ask and answer questions on this text in the same way as for Texts TA-2, TA-3 and TB-1.

Text TB-3

Read these paragraphs aloud, and be sure you understand them thoroughly.

Kuanzia saa tisa mchana, wanafunzwa Kiswahili tena. Na wanafunzwa Kiswahili kwa muda wa saa moja. Halafu wanapumzika kwa dakika kumi. Baada ya mapumziko wanarudi darasani tena, ambamo wanajifunza Kiswahili mpaka saa kumi. Saa kumi kwisha, wanaondoka kwenda kunywa chai au kahawa. Wanafanya hivyo kwa muda wa dakika 30.

Baada ya kunywa chai au kahawa, wanakwenda kucheza uwanjani. Huko wanacheza mpira na tenis, na michezo mingine kama hiyo. Wanacheza hivyo mpaka saa 12. Na saa 12, huanza kula chakula cha jioni, ambako wanakula mpaka saa moja.

Na saa moja, wanapanda magari yanayowapeleka mpaka chumba cha lugha. Katika chumba cha lugha, wanajifunza Kiswahili, wanasikiliza tepu, na mambo kama hayo kwa muda wa saa moja u nusu. Wakimaliza, karibu saa 2 usiku, wanarudi nyumbani, yaani bwenini. Huko bwenini wanaanza kucheza karata au michezo mingine, au muziki. Wengine wanasoma masomo yao, wakijitayarisha kwa mafunzo ya kesho yake, mpaka saa sita. Na ikifika saa 6, wengi wao huanza kulala.

mapumziko (6) 'rest, relaxation'

isha 'to come to an end, finish'

panda 'to go up, board (a conveyance)'

gari (5) 'vehicle'

peleka 'to bear, carry'

maliza 'to finish'

TO THE STUDENT:

The stem /anzia/ consists of /anza/ 'to begin' plus the 'applicative' extension which here has the form /i/. It is not easy to summarize the uses of this extension. One of its principal uses, illustrated here, is when the action of the verb has some special reference or relationship to the word that follows. The English translation often has a preposition, frequently 'for', but in this instance 'from' or 'at'.

Kuanzia saa 9...

Beginning from/at 3:00...

The words /ambamo/ 'in which' and /ambako/ 'where, at which' are comparable to /ambapo/ (Text TB-1), but belong to different locative classes.

The phrase /kesho yake/ 'the next day' is literally 'its tomorrow'.

One very common relationship between nouns and verbs is illustrated in:

soma 'to study somo 'lesson' (5)

masomo 'studies' (6)

funza 'to teach' mafunzo 'lessons, studies' (6)

pumzika 'to rest' mapumziko 'rest, rest period' (6)

Notice also, with prefix /mi/ instead of /ma/:

cheza 'to play' mchezo 'game (3)
michezo 'games' (4)
The word /kwisha/ is the infinitive of the verb /isha/ 'to come to an end, to finish'. Here, it is used in the sense of 'whenis past'.
The word /yanayowapeleka/ is built on the stem /peleka/ 'to bear, carry'. Three of the prefixes are already familiar. They are the subject prefix /ya/ in agreement with the noun /magari/, the tense prefix /na/, and the relative prefix /yo/ (Text TB-2). The unfamiliar prefix is /wa/. It is an 'object prefix', and represents the person, number, and class of the object of the verb, which in this case is the students. Compare also:
linampeleka 'it carries him'
linawapeleka 'it carries them (personal)'
linakipeleka 'it carries it' (e.g./chakula/ 'food')
wanaucheza 'they play it' (e.g. /mpira/ 'football')

C-1

Ask the questions in M-2 from time to time, and give the answer that is appropriate at the moment when the question is asked.

TO THE STUDENT:

This cycle introduces the affirmative /me/ tense in one of its principal uses, and also introduces the negative tense that corresponds to this use of the /me/ tense.

As it is used here the /me/ tense is used of events which are past, but in some way especially relevant to the present situation. Thus, it frequently but not always has an English translation in the 'present perfect' tense: 'we have finished', 'the hour has come', etc. Even the verb /tumechoka/ 'we are tired' may be thought of as also meaning 'we have become tired'.

Because the /me/ tense, if it is to be used realistically and authentically, depends on the situation at the moment when it is used, we have not been able to set up an ordinary C-phase for this cycle. Questions can be used in real communication only by asking them individually whenever they seem to be appropriate.

The expression /kuwa na njaa/ 'to be hungry' has no grammatical relationship to the /me/ tense, but its meaning makes it fit in with the other sentences in this cycle.

TO THE STUDENT:

/kila/ 'each, every' is one of the few Swahili adjectives which precedes the noun.

The Weather

Text TD-1

Hali ya hewa mjini Dar-es-Salaam katika mwezi wa Septemba si nzuri sana.

Kuna joto kali sana na pia hewa ina unyevunyevu mwingi.

Wakati huu ni wakati ambapo mji huwa na joto jingi kuliko wakati mwingine, na mvua huweza kuja wakati wowote.

Na mara nyingi ukiamka asubuhi, huwezi kujua kama itanyesha au sivyo.

Mwezi wa Novemba joto linaanza kupungua, kwani mvua inaanza kuja.

Na hivyo ingawa kuna unyevunyevu, hali ya hewa si joto sana.

Na wakati huu, matunda yanaanza kuonekana kwa wingi mjini, kwa sababu ya mvua inawezesha mimea izidi kuchipua zaidi. In November the heat begins to decrease, because it begins to rain.

Mwezi wa Januari, ni bado una joto, lakini mvua inakuwa imelipunguza joto.

Mvua huendelea kunyesha tu mpaka mwezi wote uishe.

Na wakati huu matunda yanakuwa ni mengi sana mjini.

Lakini huwa ni bado sana mpaka wakati wa baridi.

Na watu wa Dar wanakuwa bado wako katika taabu ya jasho.

There is still heat in January, but the rain has reduced it.

Mvua mara nyingi inafika asubuhi sana katika mwezi wa Januari.

Mvua inafika mchana katika mwezi wa Machi.

Hali ya hewa inaanza kuwa nzuri.

Mvua inapungua na kunakuwa na baridibaridi.

Lakini wakati wa baridi unakuwa haujafika bado.

Na wakati huu, miti inaanza kuotesha majani, na kujitayarisha na ukame wa nchi unaofuata baadaye.

Katika mwezi wa Mei, ni wakati wa baridi Dar.

Ninaposema 'baridi' yaani baridi kufananisha na wakati mwingine.

Watu hutoka bado jasho.

Lakini, kwa mtu ye yote aliyepata kufika Dar-es-Salaam na kukaa mwaka mzima pale, ataona kuwa huu ni wakati wa nafuu.

Mvua huwa ni kidogo sana ingawa bado inanyesha.

Na mtu anaweza kuvaa koti bila kupata taabu sana.

The month of May is a cold month in Dar.

When I say cold, that is the cold in comparison to other seasons.

People are still sweating.

Hali ya hewa kati ya Dar na Iringa inatofautiana sana.

Tofauti ni hii.

Inatokana na mahali miji ilipo.

Mji wa Iringa uko juu sana katika nyanda za juu.

Na mji wa Dar uko pwani.

Hivyo tukichukua mwezi wa Mei tutaona kuwa Iringa ni mji wa baridi sana.

Na watu hata wanahitaji makoti.

Kumbe, Dar huwa hakuna joto.

Na watu wanaweza kuvaa mashati yao kama kawaida, ingawa kunakuwa na baridi kuliko wakati mwingine. The weather of Dar and of Iringa are very different from each other.

This is the difference.

It is caused by the location of the cities.

The town of Iringa is high up in the highlands.

And the city of Dar is on the coast.

Therefore if we take the month of May we see that Iringa is a very cold city.

And the people even need coats.

Surprisingly, Dar is not hot.

Nilipokwenda mjini Nairobi, sikuchukiwa sana na hali ya hewa ya kule.

Hali ya hewa ya kule ni ya kupendeza.

Ni tofauti kidogo na hali ya hewa ya Iringa ambako natoka, lakini inafanana sana.

Pana joto zaidi Nairobi kuliko Iringa.

Lakini nilipokuwa pale katika mwezi wa Agosti niliona watu wanavaa makoti bila kusumbuka.

Na Nairobi ni mji mzuri na wa kupendeza.

When I went to Nairobi, I was not disturbed by the climate there.

The weather there is pleasant.

It is a little different from the climate of Iringa where I come from, but resembles it very much.

Wakati wa kusi mji wa Washington huwa una baridi sana.

Yaani ukifananisha na wakati wa kaskazi utaona tofauti kubwa sana.

Wakati fulani theluji inaanguka na hata magari hayawezi kutembea vizuri mpaka theluji iondolewe barabarani.

Na joto linashuka mpaka zero au chini zaidi, na kwa jumla, hali ya hewa, huwa si ya nafuu mpaka ukae katika nyumba iliyo na mashine za kuweza kutoa joto au ukoke moto.

Na magari pia, lazima yawe na mashine ya kutolea joto.

In the winter time the city of Washington is very cold.

That is, if you compare it with summer time, you will see a big difference.

At certain times snow falls and [even] cars cannot run well until the snow is removed from the road.

EPILOG

The 'cycles' and the 'texts' of this course have given you an active introduction to almost all of the main points of Swahili structure. This fact is of more than academic value to you. It means that in any new text, either spoken or written, you will find that most of the grammar is familiar. Your main deficiencies at this point are in the realm of vocabulary.

One procedure for expanding your vocabulary, and at the same time increasing your fluency in the use of Swahili grammatical structures, is the following:

- 1. Choose a topic with which you are partly familiar. Ask a speaker of Swahili to talk to you on this topic for 30 seconds. (You should of course explain in advance that you are going to stop him.)
- 2. At the end of 30 seconds, ask him to start again. Ask him to 'say the same thing, without leaving anything out or putting in anything new.' (He will of course make some small changes.)
- 3. Ask to hear the same thing a third and a fourth time.
- 4. Ask the speaker to dictate the text to you, one sentence at a time.
- 5. Prepare the text for study, in one or more of the ways that were used with the texts of Series A-C (blank-filling, questions and answers, etc.).
- 6. Get at least two or three more texts on topics that overlap the first. In this way, you will secure further practice with many of the vocabulary items that were new to you in the first text.

Most students who have completed only this course in Swahili would benefit from systematically organized drill materials emphasizing individual points of Swahili grammar. These, along with short dialogs for memorization, may be found in the Foreign Service Institute's <u>Swahili Basic Course</u>. A very readable and reliable survey of Swahili grammar, aimed at the beginning student, is James L. Brain's <u>Basic Structure of Swahili</u>, obtainable from the East African Studies Program of Syracuse University. The reader is referred to these, as well as to the well known standard works by Ashton, Perrott, and Steere.

GLOSSARY

Words are alphabetized by the first letter of the root, regardless of presence or absence of prefixes. In order to make the listing easier to follow, the words have been spaced so that the first letters of the roots form a straight vertical column on the page.

Stems preceded by a single hyphen are verbs; stems preceded by a double hyphen are adjectives.
