Indonesia is located between two oceans, which are the Pacific Ocean and the Indian Ocean as well as the South China Sea. The Indonesian archipelago stretches from 6°08' north latitude to 11°15' south latitude and from 94°45' to 141°05' east longitude. Indonesia is also located between two continents, Asia and Australia.

Sumatra and Java, two of five main islands in Indonesia used to be called “Swarna Dwipa” which means the island of gold and “Jawa Dwipa” which means the island of rice.

Recognize Cities and Locations in Indonesia

Scenario (Pair Work)

In the following scenario, two students are studying together for the next geography exam. The topic is about Indonesia. Your instructor will model the dialogue for you. Then, play the roles with a partner. Take notes on basic expressions used in discussing geographical information, and be ready to use them for exercise 1.

- Danang: Apakah kamu siap? Aku akan memberikan beberapa pertanyaan tentang Indonesia.
- Siti: Tentu saja aku siap. Aku sudah belajar sebelumnya.
- Danang: Apa nama ibu kota negara Indonesia?
- Siti: Itu mudah sekali. Ibu kota Indonesia adalah Jakarta.

- Siti: Aku rasa aku belum siap untuk ujian besok pagi. Aku harus belajar lagi.
- Danang: Aku akan membantu kamu.
- Siti: Terima kasih.

Exercise 1 (Pair Work)

A. Look at the map above and use it as your guideline. You and your partner are going to ask and answer questions orally based on the information given in the map. Use the scenario on the previous page as your model. Do not hesitate to use structures that you have learned from previous lessons, such as those on comparison. For instance, ask about the sizes of the islands in comparison to places that you know in the US or other parts of the world. Also, consider the proximate distances between places. All information to perform the conversation is available in the map. (Note: remember from previous lessons that when you are asking about a subject, you must use the auxiliary "yang" after your question word).

B. Write down the questions and answers that you and your partner have come up with during the oral exercise. Compare your sentences with the rest of the classes'.

Exercise 2 (Pair Work)

Read the following passage about provinces in Indonesia, and then answer the questions. After you have done this, discuss the answers with your partner.

Indonesia mempunyai 30 propinsi. Dari 30 propinsi itu ada 2 yang merupakan daerah istimewa yaitu Aceh dan Yogyakarta, dan satu daerah khusus ibu kota yaitu Jakarta. Bendera Merah Putih

Bendera Indonesia sering disebut "Sang Saka Merah Putih", terdiri dari dua warna yang dibagi secara horizontal. Merah berarti berani dan putih berarti suci. Warna merah dan putih itu diambil dari warna bendera satu kerajaan besar di abad 13, Majapahit. Majapahit adalah kerajaan Hindu yang atas pimpinan patih Gadjah Mada, daerahnya meliputi Pulau Jawa, Madura, Bali, dan pulau-pulau lain di Nusantara. Bendera Majapahit juga memiliki dua warna yang sama, merah dan putih; hanya namanya saja yang berbeda, yaitu "gula kelapa". Gula yang berasal dari kelapa berwarna merah bata, dan karena itulah barangkali nama itu dipilih. Bendera merah putih mulai dipakai pada awal abad dua puluh di Hindia Belanda oleh para pemuda yang menjadi simpatisan gerakan nasional Indonesia. Hingga kini setiap tanggal 17 Agustus bendera tersebut dikibarkan, dengan diiringi Lagu Nasional Indonesia Raya. Cara menghormat yang umum adalah dengan menaruh tangan kanan di pelipis seperti gaya menghormat militer.

The Prefix *ter-*

In Module 1 Lesson 5 you have learned how the prefix *ter-* can be added to an adjective to show superlative comparison. In this lesson you find that when the prefix "*ter-*" is used in a verb, the sentence becomes a passive sentence, due to the fact that the subject of the sentence is a passive subject. In other words, the subject does not commit the act described in the predicate. However, this prefix commands specific meanings. In this lesson, one meaning of the prefix *ter-* is used. It implies that the subject is already being in the condition said by the predicate (perfective mood). Whoever or whatever commits the action is not necessary to be known; mainly because the prefix does not actually denote an action being carried out, but more the result of the action. While in Indonesian a verb with a *ter-* prefix is used, in comparison, in English this meaning is usually expressed using adjectives ("*the door is open*"; as opposed to "*the door is opened by John*" for instance).

There are other meanings of this prefix which will be entertained in future lessons as their usage becomes necessary to accomplish the tasks of the lesson. Observe the examples using the root word "*letak* (location)" and "*buka* (to open)" below. The first sentence is taken from the introduction section.

1. Kota Jakarta terletak di pulau Jawa. (*The city of Jakarta is (being) located on the island of Java.*)
2. Senjata itu diletakkan oleh Praka Hasibuan di atas meja. (*The weapon is placed on the table by Praka Hasibuan.*)
3. Pintu itu terbuka. (*The door is (in the condition of being) opened.*)
4. Pintu itu dibuka oleh Aminah. (*Lit. The door is opened by Aminah.*)

In the first example, the town of Jakarta is in the condition of being located in the island of Java. Whoever decided in the past to "put" the city there, or how the city got there in the first place is not important for the speaker. In the third example, the door is in the condition of being opened; whoever or whatever opened the door, or how it came to be opened is also not important for the speaker.

Exercise 1 (Class Work)

Create sentences or conversations based on the following situations, and use the prefix *ter-* when the situations permit. Compare your result with your classmates. All of the verbs needed to develop the sentences have been introduced in this lesson and the previous ones

1. Imagine that you are a member of the Indonesian Armed Forces. You are stationed in Northern Kalimantan and supposed to cross the border from Indonesia to Malaysia (Serawak). You just found out that the border is closed, and now you need to report to your superior of the fact. You also want to know since when this situation is taking place and would like to know why you are not informed.

Exercise 1 (Class Work)(Continued)

2. You arrive at your office and discover that the front door is wide open. You are very sure that you locked the door the night before, especially since you are the last to leave the office. You decide to call your boss and explain the situation. Tell him the condition the door is in first. Then, tell him what you think about who opened it.

3. You are the first to arrive at your office and discover that the front door is not locked. You know that Subarkah was the last one to leave the office the other night, so you feel the need to inform him due to the fact that it is the last person's obligation to lock the door.

4. Imagine that you are on a mission with the Indonesian Kopassus in the deep jungle of Kalimantan, and find Sergeant Abdullah lying unconscious with a gunshot wound. As you are treating his wound you reach for your radio to call for aero-medievac. How would you describe what happened to Sergeant Abdullah to the Indonesian pilot?

Writing Decimals

Although some publications may follow the US rule on writing decimals, the most widely used way of writing decimals in Indonesia is by using commas in place of the points. Note the difference in the following examples:

English		Indonesian	
<i>In words</i>	<i>In numbers</i>	<i>In numbers</i>	<i>In words</i>
zero point five	0.5	0,5	nol koma lima
one point two five six	1.256	1,256	satu koma dua lima enam
thirty six point nine percent	36.9%	36,9%	tiga puluh enam koma sembilan persen

Conversely, as you may recall from Module 2 Lesson 2, points are used in place of commas in numbers greater than 999.

Exercise 2 (Pair Work)

To familiarize yourself with expressing decimals in Indonesian, calculate the following mathematical problem (You may use a calculator). Base your calculation on the following approximate number of Indonesian population: *dua ratus juta*. Then, working in pairs, take turns in asking and answering the same questions.

1. 7,5 % penduduk Indonesia berasal dari suku Madura. Kalau begitu, berapa jumlah orang Madura di Indonesia?
 - a. 15.000.000 orang
 - b. 150.000.000 orang
 - c. 1.500.000 orang

2. Di tahun 2000, penduduk laki-laki di Indonesia adalah 50,1% dari seluruh populasi. Kalau begitu, berapa jumlah perempuan di Indonesia?
 - a. 99.800.000 orang
 - b. 9.980.000 orang
 - c. 998.000.000 orang

3. Penduduk Provinsi Sulawesi Tengah kira-kira 1,08% dari seluruh penduduk Indonesia. Jumlah penduduk Provinsi Riau kira-kira 2,2 kali penduduk Sulteng. Berapa jumlah penduduk di Provinsi Riau?
 - a. 47.520.000 jiwa.
 - b. 4.752 jiwa.
 - c. 4.752.000 jiwa.

Regional Military Commands

Kodam II/Sriwijaya headquarters, Palembang, Northern Sumatra

KODAM (*Komando Daerah Militer* - Regional Military Commands) is the largest military territorial unit in Indonesia. Two stars generals command the units, each with the title of *Pangdam* (*Panglima Kodam*).

There are 12 KODAM in Indonesia, namely

1. Kodam Iskandar Muda, covers the whole Aceh Province
2. Kodam I/Bukit Barisan, covers the provinces of North Sumatra, West Sumatra and Riau
3. Kodam II/Sriwijaya, covers the provinces of Riau, Bengkulu, Jambi, South Sumatra, and Lampung
4. Kodam Jaya, covers the areas of DKI Jaya, Tangerang, and Bekasi
5. Kodam Diponegoro, covers the provinces of Central Java and Yogyakarta

Each KODAM is made up of four to six KOREM (*Komando Resort Militer* - Sub-Regional Military Command); each led by a colonel with the job title of *Danrem* (*Komandan Korem*). There are also a number of specialized battalions associated with each KODAM. For example, *Pangdam Sriwijaya* oversees four KOREMs, and also four specialized battalions: YONKAV-5 (*kavaleri* - cavalry), ARMED-15 (*artileri medan* -

field artillery), ZIPUR-2 (*zeni tempur*- combat engineer), and ARHANUD 41 (*artileri pertahanan udara* - air defense artillery).

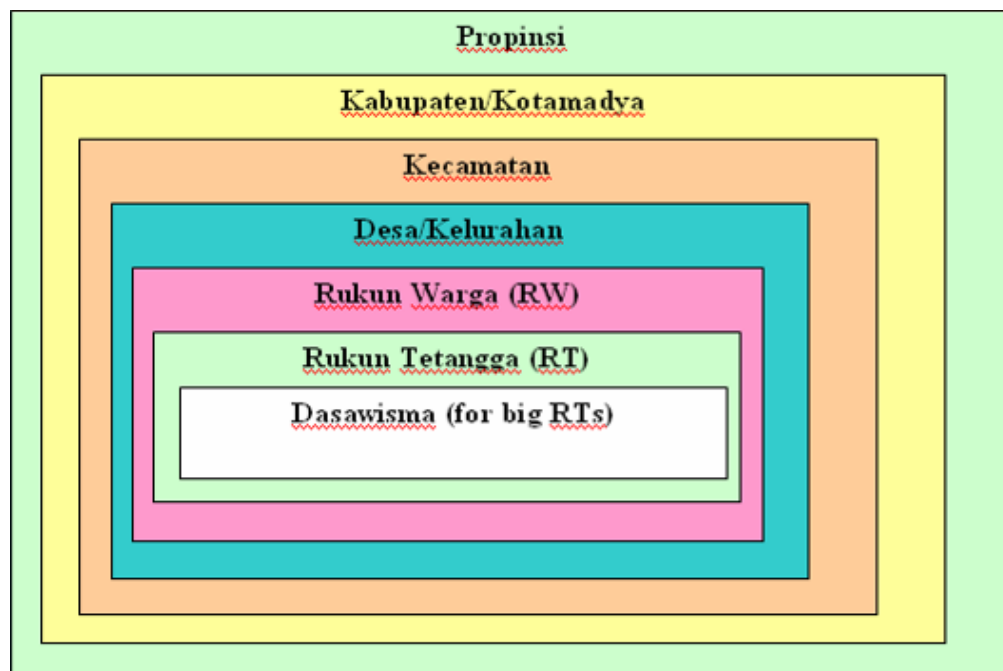

Each KOREM is responsible for the security of its territory and the activity of some KODIM (*Komando Distrik Militer* - District Military Command), and also for the activities of one or two territorial combat battalions. The KODIM is led by a *Dandim* (*Komandan Kodim*) with the rank of lieutenant colonel. Each KODIM is made up of a number of KORAMIL (*Komando Rayon Militer*), led by a Danramil (*Komandan Koramil*) with a rank of a Second Lieutenant (*Letnan Dua*).

Administrative Divisions

The following scheme shows how regions are organized administratively in Indonesia, from *propinsi* (province) to *dasawisma* (lit. ten houses). *Dasawisma* is optional, depending on the size of the *Rukun Tetangga* (RT). Starting from RW level down the official leaderships are voluntary.

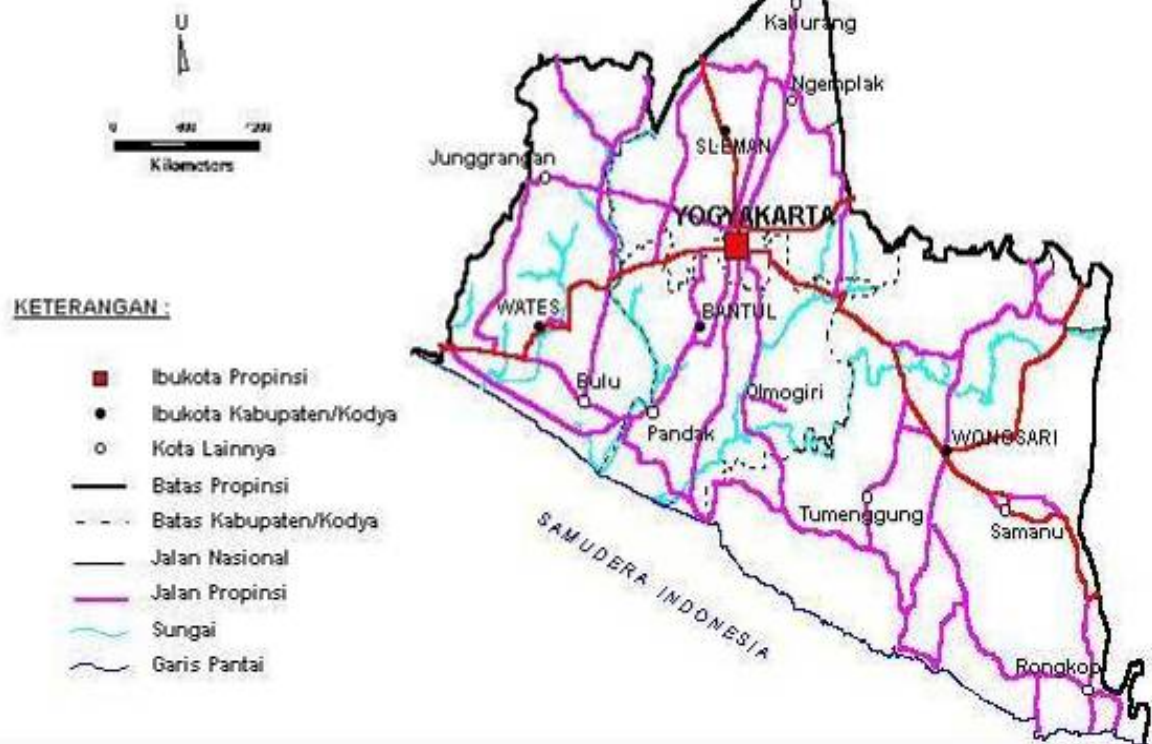

Recognize Cities and Locations in Indonesia

Activity 1 (Pair Work)

Study the map of the two provinces in Indonesia below, then ask each other questions about numbers of *kabupaten* in the province, the capital of the provinces, locations of different cities and towns, and so on. Change roles with the second province.

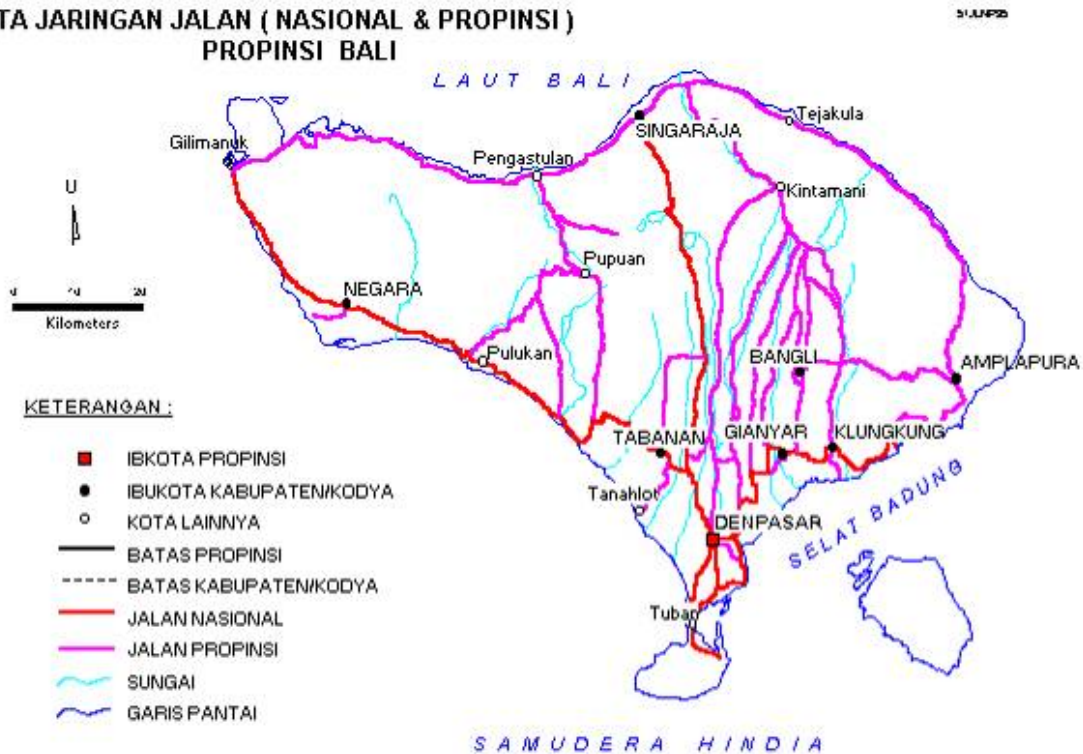

A.

PETA JARINGAN JALAN (NASIONAL & PROPINSI)
D.I. YOGYAKARTA

B.

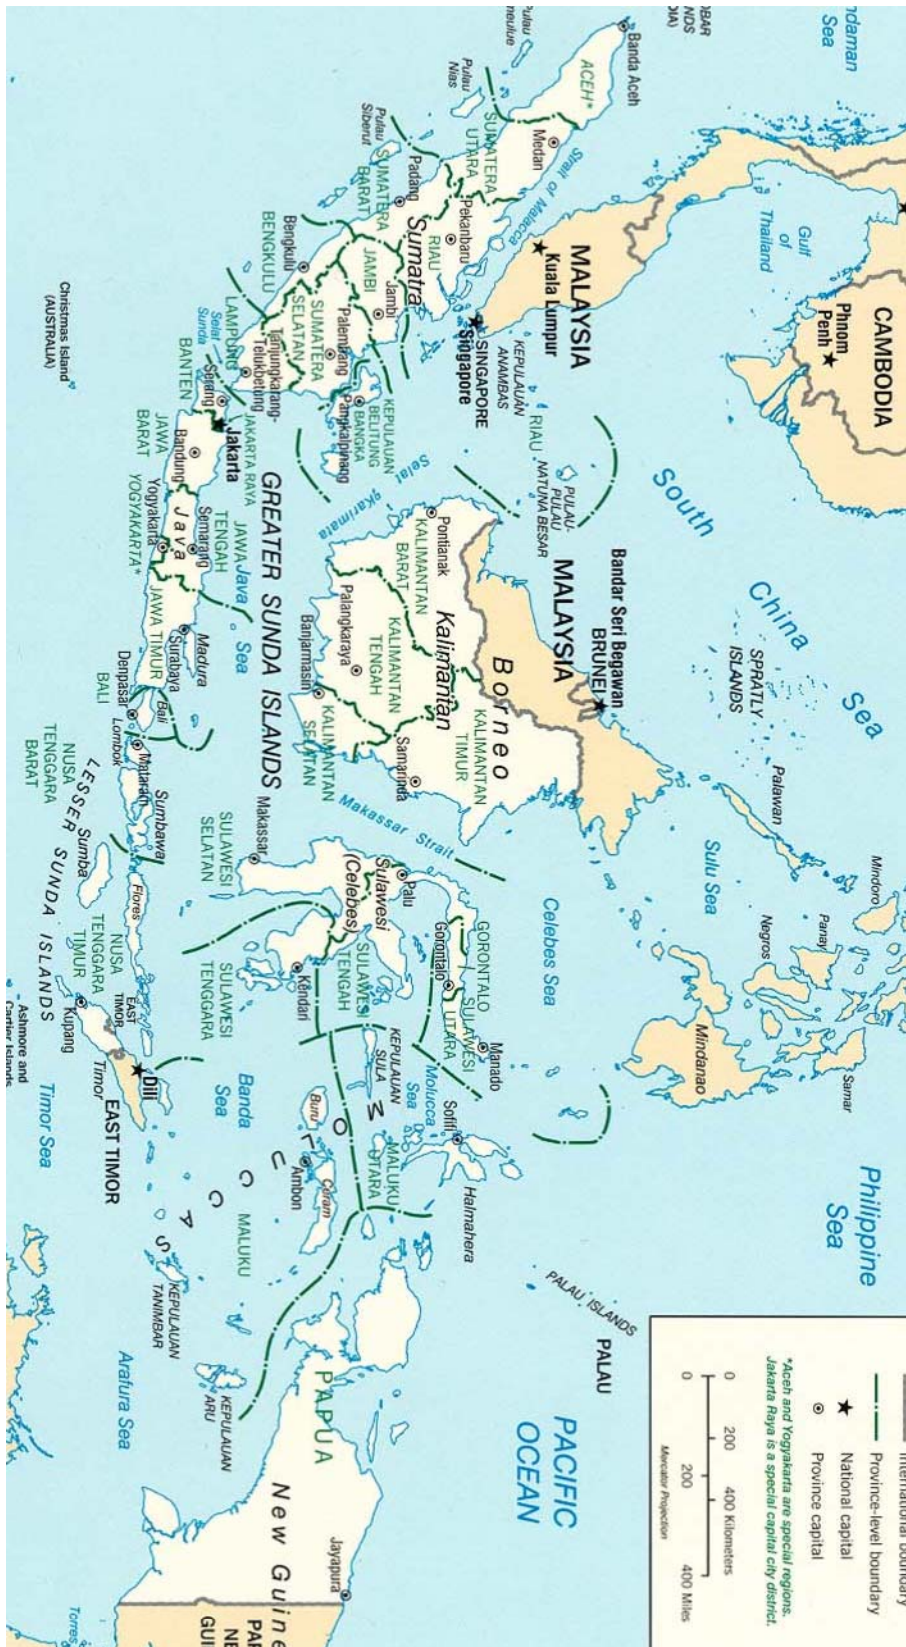

PETA JARINGAN JALAN (NASIONAL & PROPINSI)
PROPINSI BALI

Activity 2 (Pair Work)

Using the map on the next page, describe one of the provinces on the map to your partner without mentioning the name. Describe as many details as possible so that your partner will be able to guess the name of the province you describe. Possible informations are approximate distance from other geographical features, adjoining regions and capital cities. Take turns in doing this activity.

Activity 2 (Pair Work) (Continued)

Activity 3 (Pair Work)

Your partner has just arrived in Indonesia and he does not know much about Indonesian borders and its surrounding countries. Create a conversation between you and your partner about the topic. Use the map in Exercise 1 in the Introduction to help you.

Activity 4 (Group Work)

Divide the class into four groups. Each group will come up with one fact about Indonesia. Find out and write down as much information as possible about the fact. The other groups will ask your group questions about their facts and your group will answer those questions. After you are done, it is your group's turn to ask the other group questions about your facts.

Activity 5 (Group Work)

Form a group of three and then discuss the similarities and difference between the Indonesian flag and the American flag. Mention as much information as possible. After you are done, present the results of your discussion in front of the class.

Activity 6 (Pair Work)

In Indonesia, each city has a small military installation called KODIM Komando Distrik Militer (District Military Command).

You and your partner are going to discuss the location of an Indonesian military installation. Use the example below to ask and answer questions about the topic. Use any Indonesian cities that you know.

Q: Di mana letak markas KODIM?

A: Di kota Semarang.

A: Di jalan Sudirman Nomor 12.

Identify Nationalities

Activity 7 (Group Work)

Compare the varieties of languages in America to those in Indonesia. Discuss it with your group and after you are done, compare it with other groups. Refer to the previous reading about languages in Indonesia.

Compare these elements:

1. Varieties of language
2. The approximate number of people who speak it

Activity 8 (Pair Work)

Form a group of three, and pretend that each one of you is from a different ethnic group. Introduce yourself to the group, and then ask and answer questions with the members of the group.

Use these examples for questions:

1. Anda berasal dari suku apa?
2. Dimana letak suku Anda?
3. Bahasa apa yang digunakan?

Activity 9 (Class Activity)

Choose one of the tribes in Indonesia that you know. Make a presentation in front of the class. Be prepared to answer questions from your friends.

4. T F _____
5. T F _____

Activity 11 (Pair Work)

Pretend that you are a teacher that is going to explain about Indonesian demographic conditions. Present your explanation in front of the class. Be prepared to answer questions from other students.

Recognize Cities and Locations in Indonesia

Activity 1 (Pair Work)

Your partner will describe one island/province/city in Indonesia without mentioning the name. Listen to him carefully, and then mark the place in the map with a number and write the name along with the number on a piece of paper. Check with your partner to see if your answer is correct. Take turns doing this activity.

Activity 2 (Pair Work)

Your partner will describe one of the border countries without mentioning the name of the country. Listen to him/her and take notes. Try to guess the name of the country and find out whether your answer is correct or not. Take turns doing this activity.

Activity 3 (Group Work)

You are going to do a “Running dictation” game. Divide the class into groups of three. The aim is for one of the students in each group to walk or run to read the passage on the wall (provided by the instructor). He/she remembers some of the passage and walks or runs back to his/her group. He/she then quietly dictates what he/she remembered to his/her group/partners, who writes it down. You then change roles. Over several turns, you will build the whole passage. This means that you really do have to run back and forth, because you will only remember three or four words at a time. The winning team is the team that finishes first - although you need to check for mistakes. If there are mistakes, you must keep walking to check!
